

**THE 3905 CENTURY CLUB, INC.**  
**CENTURY CLUB PREFIX AWARD APPLICATION**  
(EACH BAND SEPARATELY)  
(ENDORSTABLE)

The CCPX Certificate is awarded for confirmed contacts with at least 300 different call sign prefixes worked on a single band. Endorsements will be awarded for every 100 prefixes above the basic award. The 500 prefix level signifies "Advanced" and the 700 prefix level signifies "Expert."

1. Applicant must hold a 100-Point Award on the band for which this application is made.
2. For this award ONLY, the call sign prefix is defined as the letter/number combination that precedes the "all-letter" suffix. This prefix is subject to possible modification before entry on the application form. See Requirement #3 for details.

**PREFIX EXAMPLES:** W1XX=**W1**, KB7XX=**KB7**, KH6XX=**KH6**, 9Y4XX=**9Y4**, VE3XXX=**VE3**

3. Stations operating away from the call area in which their call sign would normally be issued per the FCC Sequential Call Sign System or operating outside the country where the call sign was authorized are identified as follows.

A prefix from a call area or country may only be used as it appears if it is a prefix normally assigned to that area or country. In the USA, "normally assigned" means assigned as it would be sequentially assigned by the FCC Sequential Call Sign System, which does not, for example, sequentially assign a W4 prefix to someone living in the W5 call sign area.

4. In the case of such conflicts for operation within the USA, the Prefix will begin with the single letter 'W' (W1, W2,...) when the station is located in the continental USA, and begin with a 'K' (KH6, KH7, KL7, KP2...) when outside the continental USA.

For example: KA3AAA in Utah=**KA7**, KA3IOU in Florida=**KA4**, N5FCC mobile in Michigan=**N8**, KL7ICE in Florida=**W4** NOT KL4 as KL4 is not a prefix the FCC issues under the Sequential Call Sign System to a Florida resident. KP4MMM mobile in New York=**W2** NOT KP2 as KP2 is reserved for Virgin Islands. KB7FN in Alaska=**KL7** NOT KB7 as KB7 is not sequentially assigned in Alaska. W3/SM5EEE in Maryland=**W3** NOT SM5.

5. In the case of DX operations, most countries have a geographical/prefix breakdown similar to ours. These charts are listed in the ARRL Operating Manual. These charts will be used to determine the prefix for mobile/portable DX operations. For example, K6BVV mobile Baja California (Mexico) would be considered XE2 using the charts. Calls without a number are assigned an arbitrary '1' after the letter(s). For example: FS/K6BVV=FS1.
6. The indicators /M, /P, /MM and such, which may appear either before or after the call sign (per FCC), are to be completely ignored.
7. Contacts must be on 3905 Century Club Nets on a single band. Applicant must be a 100-point certificate holder on the applicable band. QSLs used to obtain this award may be used toward any other award.
8. Applications and QSLs are to be submitted with Worksheets I and II.

**SUBMITTING APPLICATIONS:**

1. After first assuring that each card used toward this award conforms to all of the requirements above, refer to the standard instructions contained in the application for the 100-Point Award, or on our web site (Awards Program, General Information), or included with this application if it was obtained by postal mail, for submitting applications and paying awards/endorsement fees.

**PLEASE MAIL IN ONLY THE FOLLOWING PAGES WHEN SUBMITTING YOUR APPLICATION !!!**

		KY( )		NY( )		WY( )	
		KZ( )		NZ( )		WZ( )	

THERE ARE 82 BLANKS  
ON WORKSHEET I.

PLEASE ENTER THE CALL  
AREA (OR 90, 200, ETC)  
THAT YOU ARE  
REPORTING  
ON THIS WORKSHEET ON  
THE LINE BELOW

Please make copies of this worksheet so you have one for each call area. In addition, you may have others to report other special numbers which have been authorized for special events. For example **NN200P** and **W90XX** operating from Texas would be counted as NN200 and W90 prefixes respectively; not NN5 and W5. Note that – for example – W200ABC in California and W200XYZ in Maryland would be the same prefix (W200).

## CCPX Worksheet II – Prefixes Assigned Outside the Continental United States

Use this three-page worksheet to list prefixes assigned outside the continental US.

The listing below has been expanded, but may not include some of the prefixes used by stations that check into the Century Club nets. Use the blank lines near the end of the worksheet and the reverse side of this sheet to list additional prefixes. If you will report prefixes you have worked that aren't listed on this worksheet to the Awards Committee; those prefixes will be added to this worksheet.

Note that special commemorative prefixes may be used; e.g., VE3, XM3 and CF3 are three different prefixes.

Prefixes such as KH, KL and KP are reported on this worksheet because they are not prefixes assigned to the continental US. However, prefixes such as KC4, KG4, KG6, KS6, KX6 and KZ5 are to be reported on Worksheet I, even if the station was outside the continental US. That is, a KG4 in Guantanamo and a KG4 in Florida are the same prefix.
